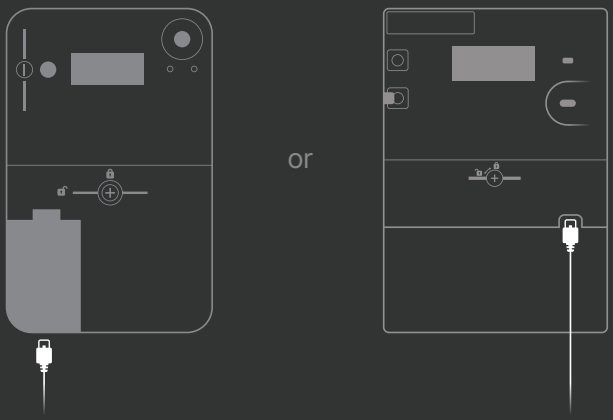
# Smappee P1 module

## Real-time grid monitoring and smart energy management.

- Real-time grid import/export monitoring.
- Supports solar surplus* charging and dynamic overload protection.
- Easy plug-and-play installation.
- Requires Smappee App setup.
- Compatible with digital meters featuring a P1 port.

## Quick setup

Connect the P1 module
to the P1 port on your digital meter.



Scan the QR code to download the Smappee App.
Follow the instructions to install and configure
your P1 module.

*Solar surplus feature requires an additional subscription.*
